## MK-600Z(Water-based adhesive for packing bend)

Current adhesives for packing bend are producing and selling based on NR Latex and Acryl Emulsion.

But NR Latex contents the protein which can be caused harmful Allergy for human's skin and then USA and advanced european countries prohibit to use it.

Therefore to solve it's problem and meet buyer's need, we have developed this named as MK-600Z. This is based on WATER-BASED CHLOROPRENE ADHESIVE that is NR Latex-free.

This product have excellent merits, that has no smelling, no danger of fire, good heat-resistance property and help good working condition under environmental friendly.

### □ PROPERTIES

DIVISION	MK-600Z
Appearance	Milky Viscous Emulsion Liquid
Main Component	Water-based Chloroprene
Solid Content(%)	50±1
Viscosity(CPS/25 °C)	1,000 ~ 1,500
